COMMENTS

For owners who do not accept compromises, the Invictus TT280 is the perfect boat, both for pure sailing and as an auxiliary for a maxi-yacht. Its evolved tender vocation is expressed through a balanced combination of refined finishes and comfortable shapes, making this boat a versatile multifunctional support boat.

The pursuit of elegance is combined with functional features, while the semi-inverted bow offers additional space below deck, which can be equipped according to the customer's needs and wishes.
